BURTEX

BURSA TEXTILE CLUSTER

One of the most important textile cities and trade center Bursa is leading the field. This is the place of common sense, environmental awareness, culture of competition and productivity but most importantly this is the place of the one that leaves a mark... Cause this is the capital of design and innovation.

CLUSTER BRANDS

Bursa leads the way to reach the nation's development targets with production potential, entrepreneurial spirit, industrial substructure and qualified employment.

Our city plays a significant role in reaching our nation's foreign trade targets in terms of export to more than 180 countries and approximately 1000 foreign entrepreneurs. Behind this Bursa's success, of course, business world representatives who put their heart and soul into the city and country, have an outstanding role.

At this point, one of the dynamic sectors leading the nation's and city's economy is textile sector. Bursa, one of the best stops of the silk road, is the heart of textile traditions for ages. When we look today, our company registered nearly 5000 to our chamber, keeps contributing to town's economy and employment.

We achieved to be one of the biggest textile producers thanks to our projects. By means of production quality, fashion and trend setting power and sense of competition, we have reached to special place moving our success beyond country's borders.

As BTSO, we want to move forward our sector with added-production target. Having said that, International Competitiveness Improving Projects (UR-GE) ongoing support of Ministry of Economy guides our companies to open up to the world .

Baby and Children Apparel Sector which textile sector representatives created by our UR-GE projects and accepted by the world wide brands such as Juniokids newly identified Bursa Textile Cluster (BURTEX) also leads the qualified and common sense growth of our sector .

34 companies gathered under a single roof, strengthens competitive identity by attending training, fairs and procurement organisations.

Within the context of BURTEX, we meet procurement committee that is composed by representatives from all around the world and fair organisations with companies from Bursa. While our members building important network with foreign buyers, they also get the opportunity of gaining new customers and presenting Bursa's quality in textile by establishing the booth abroad.

As BTSO we believe that we will keep on putting signature of Bursa under big success with our sector representatives. Thanks to BURTEX which is newly corporate company in textile sector, will power up to corporate identity and will increase foreign trade volume.

With the vision 'Bursa Grows, Turkey Grows', Textiles and Technical Textiles Center Of Excellence under roof of BUTEKOM keep leading the way to future of the sector with sustainable home textile cluster (SETEK) which is the first home textile cluster and textile and ready-to- wear clothing sector council which is a meeting point of academicians and public enterprises directors.

I hope that this great investments which add great value to our textile sector and our projects to our companies and Bursa businesses world to be beneficial and I pay my respect to all.

PRESIDENT'S MESSAGE

BTSO®

Bursa Chamber of Commerce and Industry

İBRAHİM BURKAY

*Bursa Chamber of Commerce and Industry
President of the Board of Directors*

Turkey which is the 7th biggest textile and ready to wear exporter of the world.

The target of 80 billion \$ textile export in 2023

Turkey Textile Sector

The cradle of civilisation Turkey has discovered it's potencial by putting signature under important reforms. Not only our service and products represent the power of Turkey discovering everyday but also expand Turkish quality all around the world.

Turkey's textile sector aims to be the leader in the world by means of fast improving economy, qualified employment, quality of production, trend setter designers and high customer satisfaction.

Turkish textile sector produces and exports all types of textile products such as yarn, fabric, home textile, technical textile, weaving, ready-to-wear goods and accessories.

More than 50.000 companies in the sector, aims to grow by adopting fund of knowledge, technologies, qualified Human Resources and enriching environment productions; directing modern and hi-tech equipped big firms to use production technology in their investments.

All the companies in the sector pay special attention to use recycle technology as a solution of global waste issue.

The events such as fabric designing competitions, home textile designing competitions and technical textile projects competitions are organised to improve creative potencial of textile sector nation wide and to support the young skills.

The fastest textile producer of the world is Turkey. You can deliver and order from anywhere around the world maximum in 48 hours.

Turkey has become one of the most preferred textile countries on earth in virtue of integrated production, fast supplier and logistic capacity.

Textile and apparel sector which provide employment around 2.5 million people is the leader exportation sector in Turkey.

Turkey, which is textile, textile raw materials, and ready-to-wear clothing exporter, comes second in European Union and seventh in the world in terms of textile products.

Turkey, which exports textile and ready-to-wear clothing worthy of 30 billion dollars to 200 countries since 2015, aims exporting worthy of 80 billion dollars clothing by 2023.

Turkish textile sector vision is established on growing world's scale and to be the leader. Growing textile sector will strengthen Turkey and will build the bridge of the future.

Together to the future with textile.

Bursa Textile Sector

Bursa is the vision city of Anatolian civilisations which have their origins in many years before and Republic of Turkey...

Being only 3 hours of flight distance from the world's most important trade centers Bursa, is the focus of powerful investments of Turkey which discovers the potential by putting it's signature under big reforms...

The history of textile sector in our city traces to 1.500 years before. One of the most precious raw materials of ancient, silk importing from China and producing outside of China for the first time realises in Bursa in around B.C. 550. At the Ottoman Empire as the center of weaving Bursa, still is the capital of Textile in Turkey.

In Bursa, expertised in textile, exports more than 160 countries exceeding 2 billion dollars and realises world class production in more than 8.000 companies which have million dollars investments with strong textile equipment, more than trained and qualified 100.000 employees, high-tech equipments, and innovative point of view.

Only 3 hours of flight distance from the most important trade centers of the world, Bursa.

Leading to the city's economy Bursa Chamber of Commerce and Industry, shapes the textile industry with it's visionary projects.

The mission of Textile council founded to improve common sense and strategy determines the futuristic vision of the sector.

International textile research and development projects market summit contributes to research and development projects as well as strengthens university /industry collaboration.

With the guidance of BISO, Textiles and Technical Textiles Center Of Excellence founded in the aim of strengthening innovation based and added value production in textile and technical textile area, pioneers realising new ideas in the sector.

THE WORLD CHOICE

WORLD TEXTILE BASE

BUTTIM International Textile Trade Center

Burtex Home Textile and Decoration Fair

Textile Design Summit

Bursa Textile Sector

Under favour of the center, leading the growth of textile and ready-to-wear clothing and sustainable sub-sector, it is aimed that Bursa will empower itself in the world market with genuine and high quality production with smart textile, nano products, 3D fabric technology instead of standard goods.

BUTGEM Education Center raises qualified designers in textile pattern and fashion designing thanks to training given by experts.

Design Summit sets new trends of textile design and fashion world in favour of the synergy created by events such as home style fair, BURTEX home textile and decoration fair, Fiat Fashion Night.

BURTEX Bursa Textile Cluster is a clothing and home textile base with innovative and style oriented productions. Clothing and home textile companies are getting ready to be the textile base of the world with different design vision, qualified labor and high-tech equipment substructure.

BUTEKOM Textiles And Technical Textiles Center Of Excellence

Fashion Night

Bursa Textile Cluster

The presence of advanced textile industry in Turkey enables production and marketing of high value added, fashionable and high quality products. By taking into consideration available world standards, the main vision of the sector is to produce high value added, genuine and quality products.

Enriching city's economy Bursa Chamber of Commerce and Industry runs the project of "Improvement of International Competitiveness of Bursa Textile Sector" with the support of Republic of Turkey Ministry of Economic to improve the international competitiveness for textile companies.

In the city of Turkey Bursa, the textile leading 34 private producer companies have been discovering the coming out synergy potential with the contribution of public enterprises, civil society and universities. Supported corporate search and development, innovation and designing backup companies open up to the new market by moving with common sense and strategy.

Improving the cooperation culture and rapidly corporated companies are getting ready to be the base of world textile industry in favour of competitive costs, high quality, flexible and productive production, innovative design and in touch with nature production chain.

With the vision of 'Bursa Grows, Turkey Grows' Bursa Textile Sector moves forward in the world's textile leadership. This is the city of common sense, environmental awareness, culture of competitiveness and productivity and the most important this is the city of tracers.. Because this is the capital of design and innovation.

17 companies taken place at the project produces home textile, 14 of them produces clothing fabric and ready-to-wear clothing. At the same time, the project contains 1 yarn company, 1 design company and 1 coating company. As well as the companies still export also have the potential of entering international markets.

Creating the awareness of cooperation among the members, extending capacity of export, entering to the new markets, realising activities to be beneficial to the sector by organising events to potential markets and with this cooperation, constituting more comprehensive cooperation are one of the fundamental targets of this project.
